## SUMMARY/INTRODUCTION

I am a passionate and curious front end developer with a strong interest in web development, UI/UX design, and digital experiences. With a background in HTML, CSS, JavaScript, and Figma, I love creating websites and applications that feel smooth, accessible, and intuitive. Originally from South Korea, I have lived, worked, and studied in multiple countries, which has helped me develop a broad perspective and strong adaptability. Currently, I am pursuing my studies as a Frontend Developer at Futuregames, while also improving my Swedish (SVA Grund 3). I am fluent in Korean, Japanese and English. I enjoy working in creative and collaborative environments where I can learn, grow, and contribute to meaningful projects.
