LIA(Lärande i arbete, Internship): 2027-01-04 ~ 2027-05-21

SUMMARY/INTRODUCTION

I am a dedicated Frontend Developer student with a professional background in UI/UX Design. Based in Sweden since 2020, I have successfully progressed from SFI to SVA Grund 3. Currently studying at Futuregames in Stockholm, I am building my skills in modern web applications using React, Next.js, and TypeScript. Having lived and worked in South Korea, Japan, and the UK, I have developed a broad perspective and strong adaptability in diverse teams. As I look toward my LIA (Lärande i arbete), I am excited to apply what I have learned to real-world projects and grow alongside experienced professionals.

EDUCATION

Futuregames

Frontend Developer | 2025 – Present Stockholm, Sweden

The primary focus in the course has been Frontend Development with React and Next.js supported by a Full-stack foundation from Futuregames. I am gaining hands-on experience with Node.js and databases to better understand the entire application lifecycle and ensure seamless communication between the user and the server.

- **Current Technical Focus:** Building proficiency in modern frontend stacks including React.js, Next.js, TypeScript, Context and testing.
- **Full-stack:** Gaining hands-on experience with web servers and databases to understand the application lifecycle.
- **Agile Workflow:** Collaborating in Scrum-based team projects using Git and Jira to simulate real-world studio environments.

Ezen Academy

Frontend/Web Development & UI-UX | 2023 – 2024 | Seoul, Korea

- **Design-to-Code Workflow:** Gained experience in the end-to-end design process, from initial wireframing in Figma to implementing responsive web interfaces with HTML, CSS, and JavaScript.
- **YouTube Music UX Redesign:** Conducted a strategic [case study](#) to optimize the user interface for Korean users, involving competitor benchmarking, SWOT analysis, and user journey mapping.
- **High-Fidelity Prototyping:** Developed interactive prototypes in Figma, focusing on solving user "pain points" such as navigation clutter and accessibility through iterative usability testing.

Brighton Language College

English Language | 2019 – 2020 | Brighton, UK

Oriental Language School

Japanese Language | 2018 – 2019 | Tokyo, Japan

TECHNICAL & SOFT SKILLS:

- **Modern Web:** TypeScript, JavaScript (ES6+), React, Next.js (SSR/SSG) and Context
- **UI & Styling:** HTML5, CSS3, Tailwind CSS, MUI (Material UI), GSAP, Figma
- **Backend & Tools:** Node.js, Express, RESTful APIs, Git/GitHub and testing
- **Methodologies:** Agile, Scrum, Jira
- **Languages:** English, Korean, Japanese, Swedish

WORK EXPERIENCE

2024 - Current

NOPO 1988 – Restaurant Server / Front Manager

- Coordinating daily operations and customer interactions in a high-pressure environment.

2020 - 2021 (Part-Time)

Omniglot AB & Koreanska Skolan – Korean Language Teacher

- Designed lesson plans and managed class schedules, demonstrating organizational and leadership skills.
